Taking all things together (e.g., your country of residence, financial status, work, marriage, health), how would you rate your present life condition on the following scale from the perspective of an objective observer?

Please note that one can still be very satisfied with life even in an objectively bad situation. Therefore, please try to rate your life condition as objectively as you can.

1	2	3	4	5
Very Bad	Bad	Neither Good nor Bad	Good	Very Good
